Outdoor version

Aritco HomeLift Access comes with many customization options. You can personalize your lift by choosing from more than 200 different colors, two different glass types and eight different floorings. The lift is very practical and smart and increases your home's accessibility for everyone. It comes in several different sizes. The larger models accomodate a stroller or wheelchair. The lift is SmartLift enabled which means you also get live status information in the app and the maintenance provider can get access to a Fleet management system for remote monitoring and support of the lift. The lift is equipped with our SmartSafety system, with safety features that anticipate situations and prevent accidents.
