

# ARITCO DESIGN CONCEPT

## Design Concept Abu Dhabi

by Alexander Lervik

The capital of the United Arab Emirates and a city that is growing rapidly. It has an exciting mix of traditional Arabic architecture and modern buildings.

The Abu Dhabi design concept convey a sophisticated and luxurious feel and the whole concept is inspired by the gold color scale. The lift is painted in a gold shade scale color with pearl effect. The traditional Persian patterns have inspired me when I created the DesignWall pattern.
