

CONTROL YOUR LIFT WITH EASÉ

Aritco SmartApp

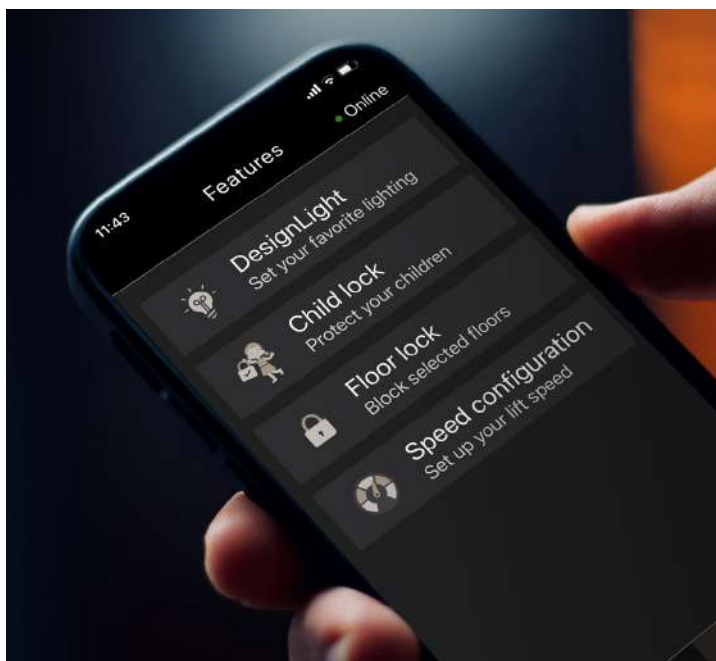

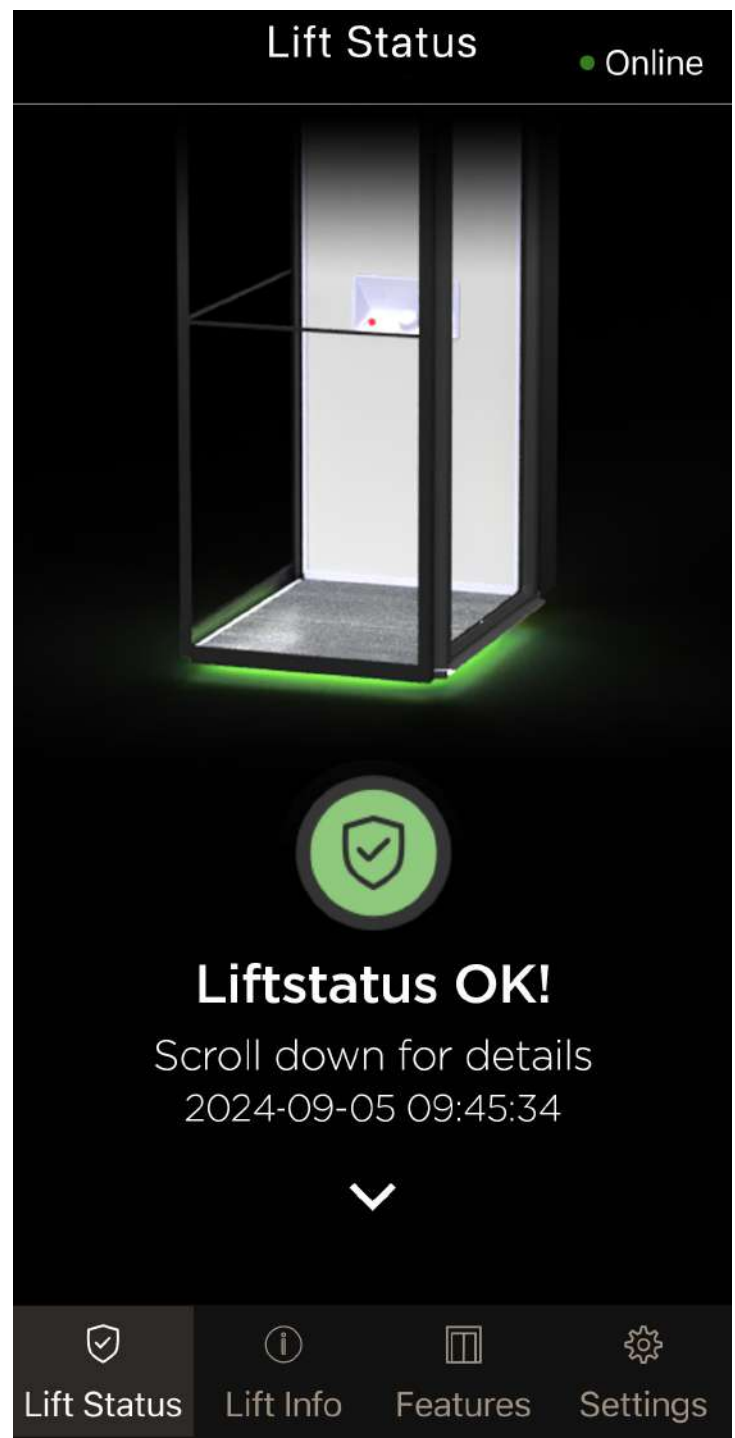

Datasheet 2024

With the Aritco SmartApp we offer a great experience for you as an Aritco lift owner, in order to feel safe and to be fully updated of your lift's status.

The first screen after login is the Lift Status page.

The Aritco SmartApp also indicate when it is time for the next service.

If your maintenance provider is connected to Aritco Smart-Fleet they can see if your lift is in good health or if support or maintenance is needed.

Aritco SmartApp

Key functionality

Aritco lifts—except Aritco PublicLift Access—are SmartApp enabled which means you get live status information in the app and your maintenance provider has access to Aritco Smartfleet for remote monitoring and support of the lift.

Lift Status

Lift Status OK!
The Lift is OK

Lift has warnings
The lift has warnings and user should check error message and contact a maintenance provider if the problem can not be easily fixed by the user.

Lift has errors
The lift has active alarms and the user should check the message and contact a maintenance team to fix the problem.

Maintenance indicator

Get notified when service is due. Prevent issues early, reduce repair costs, and keep your lift running smoothly for years — a true case of Technology.

Child lock

Prevents lift operation from the platform, ensuring children can't use it unsupervised. Activate instantly or schedule it — for SmartSafety in every ride.

Floor lock

Prevent travel to selected floors by locking them instantly or on a schedule. Manage it easily via the SmartApp to keep it secure and access restricted.

DesignLight

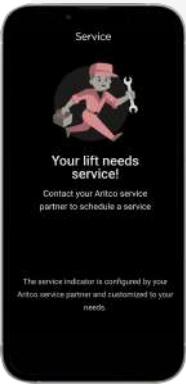

Choose from three lighting modes: Always On, Fade, or Energy Saving when the lift is idle. With optional color LEDs, you can also customize shaft light colors directly from the SmartApp — combining Technology with Purpose and Functional Elegance.

Speed

For lifts with the high speed option the user can set the desired travel speed.

Floor lock
